

Rugged Package Sensors

DESCRIPTION

- Accelerometer (XLD)
- Shock Sensor (SHK)
- Vibration Sensor (SVS)
- Inclinometer (SI and SI2X)
- Programmable Tilt Switch (PTS)

APPLICATIONS

- Platform and vehicle leveling
- Satellite dish and antenna alignment
- Machine control and monitoring
- Angle measurement and recording
- Computer input, head tracking, and mouse pointing

INTERFACE

- CAN2.0A/B
- J1939
- CANOpen
- DeviceNet
- RS232
- RS485
- Modbus
- Ethernet
- PWM
- Pulse
- 4-20 mA

CONNECTOR OPTIONS

- M12
- Deutsch 12 pin DTF-13
- Lumberg 12 pin

FEATURES

- IP65, 67, 68 environmental protection
- Low temperature drift
- Factory calibrated angle output
- High reliability solid-state MEMS
- Digital filtering for stable measurement
- Direct PC interface cable
